

Dillin Engineered Systems Corp.

Creating Optimal Solutions for Product Flow

## CAP CONVEYING

### *Plastic • Metal Round • Oval • Flip-Top*

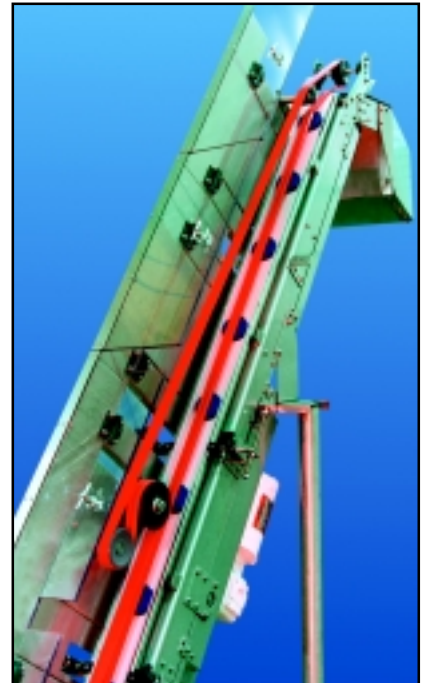

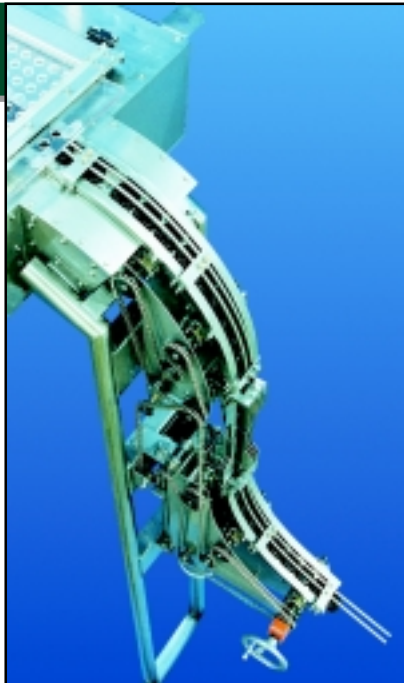

#### AIR DECK™ ACCUMULATION

- High speed without scuffing.
- Multiple cap sizes and styles without change-over.
- Extremely low maintenance.

#### DECLINE CHUTE & INCLINE BELT

- Unique infeed and discharge interfaces simplify change-over between cap sizes.
- Designed and integrated into your cap conveying system by DILLIN.

Photographs used for promotional purposes may not always depict safety labeling normally found on Dillin components.
